DevTools)
Git, Github
Task tracking(MeisterTask)

HOBBIES

- Trying new restaurants
- Video games (Hearthstone, Destiny)
- Martial Arts
- Craft Beer

APPLICATIONS DEVELOPED

Snackfinder App

- Mobile App to help find favorite snacks on the go.
- Mobile App built in **Javascript** with **ReactJS**, **JSX**, **CSS**, **Axios**.
- Collaborated with a large, diverse team of developers to create client side calls through **Axios** to **PHP** backend with a **MySQL** database.
- Utilized **Agile Process** methodology with **scrums**, ideation, and weekly sprints to achieve a Most Viable Product, while later adding more features and fix existing bugs.
- Using **Flex/CSS3** to focus on creating a better **UX** on the App.

Hearthstone Memory Match

- Web based memory match game.
- Built using **Javascript** and **jQuery** to render the game to the webpage and make the functionality of the game.
- Styling was applied using **HTML5** for the skeleton and **CSS3** and **Bootstrap** look of the layout.

Student Grade Table

- Created a Content Management System (**CMS**) enabling user to read, create and delete student grade info from a database
- Used **HTML5** and **Bootstrap** to create the layout and make it a responsive page.
- Utilized **Javascript** and **jQuery** to manipulate the data and render to the DOM.
- To get information from the server, AJAX was used to retrieve JSON files from a MySQL database.

PROFESSIONAL EXPERIENCE

Manager | The Iron Press

- Managed Front of the House and Back of the house teams while giving excellent customer service.
- Fostered new business through out the industry.
- Developed marketing strategies to increase business.
